Roundings

Numbers may differ slightly from the published income statements due to rounding differences. All financial information in this presentation ended 30 June is unaudited and is prepared under the same recognition and measurement principles applied for the audited annual financial statements. For the adjustments of 2019-2021 figures, please see note below.

Alternative Performance Measures (APMs) and Restatements

The SIX Exchange Directive on the Use of Alternative Performance Measures does not apply on this investor presentation. IFRS 17 Insurance contracts was implemented in 1H 2023. 2022 figures are retrospectively restated due to the implementation of IFRS 17 Insurance contracts. 2019-2021 figures are approximated for comparability (the insurance result consists of the netted former net earned premiums and expenses related to insurance contracts).

The income from currency-swaps in 2020-2023 was reclassified: while it was previously reported in the trading result, it is now reported in the interest business.

Banking income: interest business grows disproportionately

in CHF million

- **Interest business**
  Disproportionate growth due to higher interest rates and balance sheet growth

- **Trading result**
  Generally random development driven by financial markets

- **Transaction fees**
  Downward trend due to strong demand for all-in fee models and index-oriented investment styles

---

1 2020-2023 reclassification of income from currency-swaps: previously reported in the trading result, now in the interest business.
Net profit: +12.1% yoy

in CHF million

- Net profit margin at 38.5% vs. 37.5% yoy
- New long-term net profit margin target: 38%, revised up from 36% due to IFRS 17 implementation

1 Net profit margins were restated retrospectively due to implementation of IFRS 17 (see Disclaimer p.1).
2 Implementing IFRS 17 for 2022 resulted in a retrospective increased net profit of +0.1mio.
Financial Consulting: NNM above target corridor

**Capacity growth**

- FC full-time equivalents (FTE) with client and budget responsibility
- PCC profile equals 50% FC profile
- Wealth managers and UK consultants not included
- Further capacity increase planned

Outlook

Business development

- Continuous work on increasing new client inflow, consulting capacity, client conversion and platform usage
- VZ Finanzportal: release of mobile version of Finanzportal Pro, extended SOB-functionalties and new features for corporate clients
- Germany: further work on marketing to increase new client inflow
- UK: work on marketing effectiveness, intensify internal advisor trainee program, further work on smaller IFA acquisitions and evaluate opportunities to integrate portfolio management platform

Financials

- Base effects lead to a higher growth rate of top and bottom line in 2H 2023 vs 1H 2023 - provided stable development of financial markets
- As a result, the growth rate of top and bottom line for the full year 2023 should be significantly higher compared to the average of the last 5 years
- Interest business: after a disproportionate growth in 1H 2023, the growth will start to normalise in 2H 2023
- Dividend payout: gradual increase from 46% to 50% over the coming two years
- Long-term growth story unchanged
