## Investment options

Every affiliated company participates fully in the investment results.

- With retirement assets of up to CHF 5 million, the investment is made according to the investment strategies of VZ Investment Foundation (between 0 and 50% shareholding).
- With retirement assets of CHF 5 million or more, the investments are made as part of an individual investment strategy.

## Pension conversion rates & interest

- The conversion rate for the mandatory portion is 6.8% and 5.0% for the non-mandatory portion.
- Minimum interest of 1.25% is paid on the total retirement assets.

Additional interest shall be paid by decision of the pension fund commission of the affiliated company.

## Advantages

The VZ OPA Collective Foundation offers a pension solution that is tailored specifically to the needs of small and medium-sized enterprises. Insured companies benefit from unique advantages:

- **Cost savings:** The VZ OPA Collective Foundation bundles many small companies by means of pooling, which means that the insured companies can save up to 30 percent of their prior risk premiums and management costs.
- **Flexibility:** Affiliated companies can match their investment strategy to their own needs and their individual risk appetite.
- **Fairness:** The VZ OPA Collective Foundation reports a separate coverage ratio for each company, which prevents cross-subsidisation and dilution. If a company terminates its affiliation contract, the actual balance is paid out at the time of termination.

## Costs & fees

- The annual management costs are CHF 150 per person.
- The asset management fees depend on the selected investment strategy and are shown transparently.

## Reporting

- Reporting is carried out on a quarterly basis.
- Financial statements are prepared for the pension fund on an annual basis.
